

How to use My Notes application

@AbdulazizRasulbek

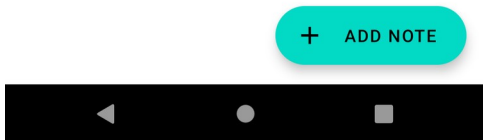

1. OnBoarding screen. General information about the app.

2. Main screen

3. Dialog

This is a screenshot of a modal dialog box titled 'Add note'. It contains four text input fields stacked vertically, each with a placeholder label: 'Title', 'Date', 'Description', and 'Tags'. Below the 'Tags' field is a small text hint that says 'Press space after tag name'. At the bottom right of the dialog are two buttons: 'CANCEL' and 'ADD'.

In the Main screen user can add New Note by clicking ADD NOTE button. After clicking the button a dialog will be opened with

4 inputs.

1.**Title.** Short title of the note. Required field.

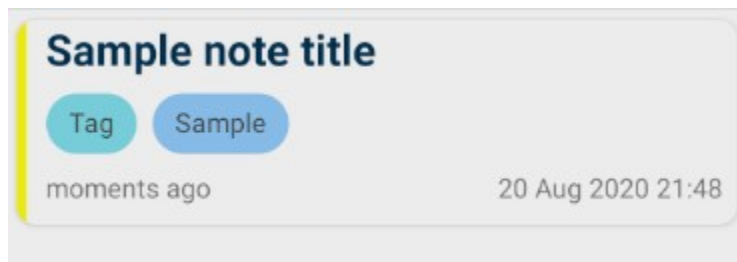

2.**Date.** Deadline date of the note. Required field.

3.**Description.** Description of the note. Required field.

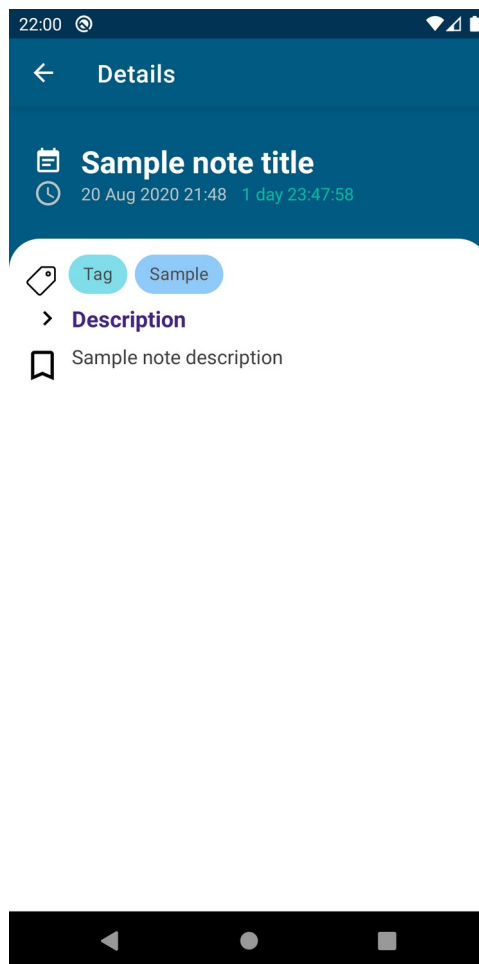

4.**Tags.** Tags of the note. With this user can find notes by its tag. To add tag user writes the name of the tag and press space after this tag will be appeared on the top of **Tags** input like the picture below. Not required field

This image shows a close-up of the 'Tags' input field from the dialog. Above the input field, two tags are displayed: 'Tag' and 'Sample', each inside a light blue pill-shaped bubble with a small 'x' icon to its right for removal. The input field itself contains the text 'Home' and has a cursor at the end. Below the field is the same hint text 'Press space after tag name'. At the bottom, the 'CANCEL' and 'ADD' buttons are partially visible.

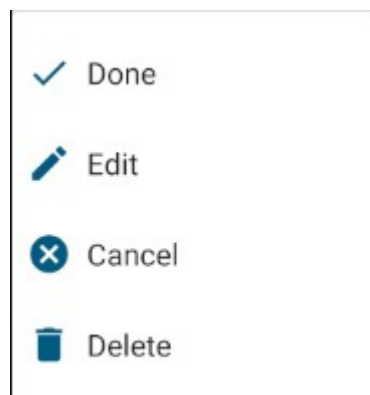

After clicking ADD button in the dialog if required fields are filled. New note will be shown in the main screen.

When a user click the note itself in all screens Detail screen of the note will be opened.

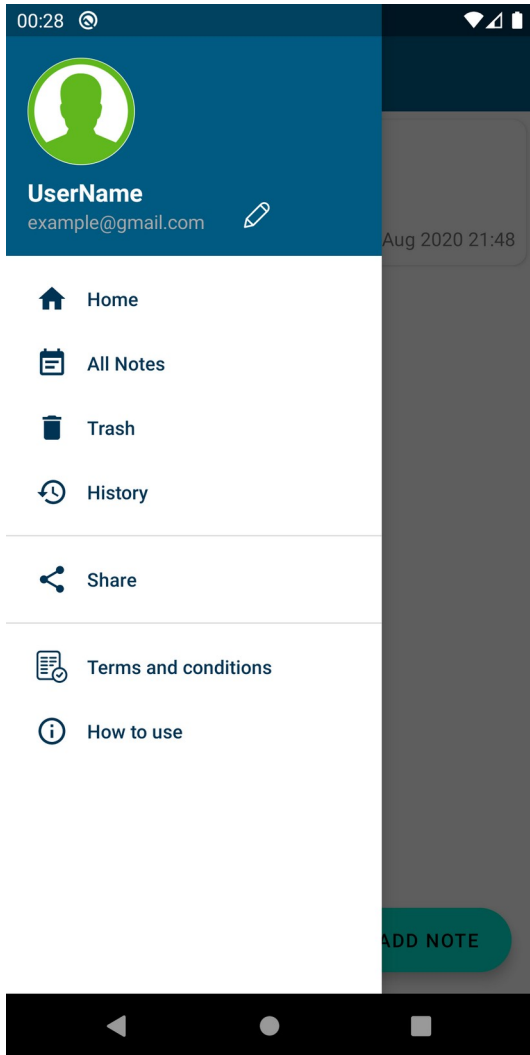

When long clicked on the note pop-up menu will be opened:

1. **Done.** When clicked current note will be marked as done. And deleted from this screen.
2. **Edit.** When clicked a dialog will be opened for editing current note.
3. **Cancel.** When clicked current note will be marked as canceled. And deleted from this screen.
4. **Delete.** When clicked current note will be marked as canceled. And deleted from this screen.

When one of the tags of the note is clicked new screen will be opened and notes with the same tag will be shown.

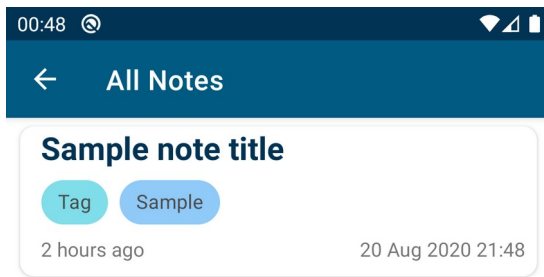

When the icon on top left corner is clicked Navigation drawer will be opened:

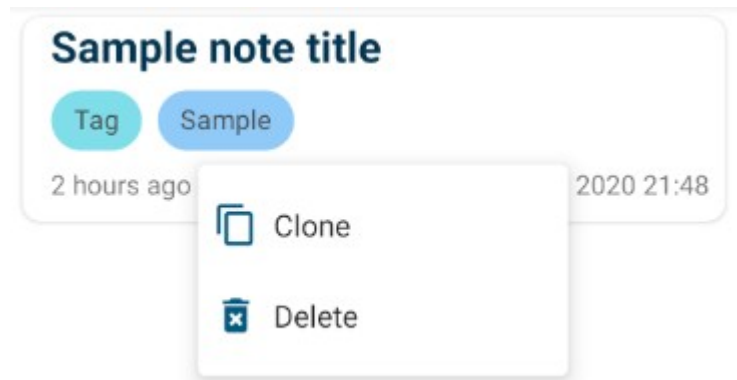

User can edit their information clicking pencil icon.

1. **Home.** Main screen.
2. **All Notes.** Shows All notes in 4 tabs.
3. **Trash.** Deleted notes after clicking delete in pop-up menu are shown there.
4. **History.** Canceled, Finished and old notes shown in 3 tabs
5. **Share.** The app can be shared.
6. **Terms and conditions.**
7. **How to use.** This screen :-)
